In "Ethical Principles Pertaining to the Care of People With Dementia: Protocol for a Qualitative Thematic Synthesis of Legal Documents" [1] the authors noticed that the Acknowledgments statement had been inadvertently omitted, and have now added the following:

> *This article is based upon the work from COST Action EDEM (Ethics in Dementia; CA21137), supported by COST (European Cooperation in Science and Technology).*

The correction will appear in the online version of the paper on the JMIR Publications website, together with the publication of this correction notice. Because this was made after submission to PubMed, PubMed Central, and other full-text repositories, the corrected article has also been resubmitted to those repositories.
