

## Acceptability

### My thoughts on the decision aid on lung cancer screening

We would like to know what you think about the decision aid you have just reviewed.

1. Please rate each section, by selecting “poor”, “fair”, “good”, or “excellent” to show what you think about the way the information was presented on:

The things that increase your chances of lung cancer	Poor	Fair	Good	Excellent
Benefits of screening	Poor	Fair	Good	Excellent
Harms of screening	Poor	Fair	Good	Excellent

2. The length of the presentation was (choose one):

- Too long
- Too short
- Just right

3. The amount of information was (choose one):

- Too much information
- Too little information
- Just right

4. I found the presentation (choose one):

- Slanted towards being screened for lung cancer
- Slanted towards not being screened for lung cancer
- Balanced

5. Did you find this decision aid useful when you were making your decision about lung cancer screening?

- Yes
- No

6. What did you think of the way that risks of lung cancer screening was presented? Was it (choose one):

- Easy to understand
- Confusing

7. Do you think we included enough information to help people decide on whether or not to be screened for lung cancer?

- Yes
- No
