Göttingen, January 26 2018

Vote on application no. 184

Title: *Evaluation Klasse2000 in Lower Saxony*

Dear Dr. Kliem,

The ethics committee of the Georg-Elias-Müller-Institute for Psychology has carefully examined your application for evaluation of the research project and has ruled by a majority that your research project is ethically acceptable.

We wish you a successful completion of this project and emphasize that the ethical and legal responsibility for the implementation of the study remains with the project leader and the project staff, independent of the positive statement of the commission.

Sincerely,

Prof. Dr. Annekathrin Schacht  
[Chairperson of the committee]

---
