

Consent and prescreening questionnaire for prospective study participants

(i.e., those targeted Twitter users who contacted the study team in response to the social media outreach)

Prospective participant survey consent (oral, over the phone)

Are you 18 or older?

- Yes (proceed)
- No (We are sorry but participants must be 18 or older to participate. We appreciate your interest.)

Purpose of the study: We are studying the acceptability and effectiveness of social media listening and recruitment on Twitter to enhance enrollment for cancer-related clinical trials. Your participation in this 5-min survey will help us understand who we were able to reach with these messages. We will ask you demographic information, such as your age, gender, education, and your opinion about the use of Twitter, in particular listening to Twitter user conversations, for cancer clinical trial recruitment.

Voluntary participation: Participating in this survey is entirely voluntary. You can withdraw from the survey or skip questions at any time without negative consequences. The information you provide will be confidential and only used for the purpose of this research project. Your information will not be shared with third parties.

Cost: There is no cost to you for taking part in this study and completing this survey.

Compensation: There is no compensation for taking part in this study and completing this survey.

If you have further questions, feel free to contact the study team at the University of Southern California. Principal investigator: Thomas Buchanan (buchanan@usc.edu). If you have any questions about your rights as a research participant, or want to talk to someone independent of the research team, you may contact the Institutional Review Board Office at 323-223-2340 or email at irb@usc.edu).

Do you consent?
